

Hi, I am Hamed Sattarian a Full-Stack Designer

As a product designer with over 10 years of experience, I have designed websites and applications for a diverse range of individuals and companies. Leveraging my creativity, expertise, and a variety of tools, I excel at solving customer problems by transforming their demands and expectations into valuable, user-friendly products. I am also skilled in implementing designs using WordPress, Framer, and frameworks such as Bootstrap, HTML, and Sass, delivering solutions that are both functional and visually compelling.

ABOUT

01

FULL-STACK DESIGNER

I currently work at BandoraSystem. My role involves designing applications and dashboards for energy optimization in industries and buildings. Additionally, alongside product design, I am responsible for redesigning and redeveloping the company's website. Having worked in web and mobile design for over 10 years, I specialize in creating interesting user interfaces for various platforms, especially e-commerce. I have extensive experience with all aspects of website design, from planning and creation to flawless implementation, and I work with many people and businesses. My ability to communicate has improved as a result of this adventure, enabling me to work well with teams of all sizes.

As a UI Designer

I focus on crafting intuitive and visually appealing user interfaces that enhance the overall user experience. My goal is to create seamless interactions and visually cohesive designs that align with user needs and business goals, while staying attuned to trends, consumer behavior, and cultural context.

As a UX Designer

I specialize in sketching and wireframing, creating mockups and user stories, and conducting UX research to ensure an exceptional user experience for each product.

As a Web Designer

I transform designs into fully functional and visually appealing websites. With expertise in HTML and CSS, I have worked extensively with frameworks such as Bootstrap and Tailwind to create responsive and interactive web experiences.
